**Azim N. Khamisa** – through his success in both the corporate realm and in the public arenas – brings practical and simple steps to enhance your workplace and workforce. Simply, he guides your company's management and employees in four main areas:

### 1. SKILLS TO UNIFY YOUR MANAGEMENT TEAMS

Take your corporation or organization to the next level as Azim walks you through overcoming the management discrepancies and corporate turf wars that limit your company's growth and success. Azim trains your teams to transform conflict into unity through:

- Exposing and acknowledging the real issues
- Creating empathy to release resentments
- Establishing unity with common objectives and goals, and a win-win mindset

### 2. TAKING YOUR LIFE TO THE NEXT LEVEL

An immigrant born in Africa, Azim had to migrate to the United States because he was targeted as a minority by the dictator Idi Amin. In 1974, Azim successfully moved his family out of Africa and settled them in the US. He has survived business failure, a painful divorce, and in 1995 the

tragic death of his son. Within each of these adversities, Azim has been able to transform the negative aspects and take his life to the next level. His story - delivered in a keynote format - truly inspires audiences to become better leaders, fathers, mothers, citizens, workers, team players. Within the corporate realm, clients are inspired to take their workplace to a higher level of productivity, profitability and performance.

### 3. SUPPORTING EMPLOYEES TO WORK AT THEIR ZENITH

Give your employees the true foundation they require to bring their best to the workplace and their lives. Azim shows them how to have clarity, trust and high working relations through the process of creating missions, visions and core values they can live by in the work setting.

### 4. PRODUCTIVITY & HIGHER ETHICS WITH RESTORATIVE JUSTICE

Punitive justice gives way to "restorative justice," a pathway that transforms poor work ethics into productive habits and allows for the restoration of the worker rather than his or her continued critique and punishment. This endeavor restores disenfranchised or disgruntled employees and empowers them to significantly increase their valued contributions.
